R. R. #2, Koke Mill Lane
Springfield, Illinois 62706

E.P.A. — D.L.P.C.
STATE OF ILLINOIS

Dear Mr. Buerkett:

Your solid waste disposal facility located on Dirksen Parkway was inspected on February 26, 1981, by Richard Johnson, representing this Agency.

It was observed that Special Conditions 3(a), 3(b), and 3(c) of Permit #1975-1-OP have been met. It was found that the major portion of Pit A had final cover, the filling of Pit B has been completed, and that 39,000 cubic yards of cover material is available to the site. Sixty (60) days after the commencement of operations in Pit C, both Pit A and Pit B should be covered with a minimum of two (2) feet of suitable natural earthen material.

It was noted during the inspection that the Annex site is close to completing its final lift. It will also require two (2) foot of final cover.

A final cover check of Pit A, Pit B, and the Annex will be conducted in the latter part of May.

Your interest and concern in this matter are appreciated. If we can be of further assistance, please feel free to contact this office.

Sincerely,

Monte M. Nienkerk
